

ASX Release

13 December 2007

Appointment of Chief Financial Officer and Company Secretary

iiNet Limited (ASX: IIN) today announced the appointment of David Buckingham as Chief Financial Officer and Company Secretary. David will commence with the Company on 21 January 2008.

On 28 November 2007, iiNet announced that the current CFO, Stephen Fewster, had resigned after four years with the Company. Stephen will remain until 1 March 2008, working closely with the incoming CFO to ensure a smooth handover.

"David has been involved in high growth Internet providers for a decade," said Michael Malone, Managing Director of iiNet. "He has particular experience in corporate activity, which is an important growth strategy for iiNet in the next couple of years."

David Buckingham is presently employed by Virgin Media in London, the only major Internet cable provider in the UK, and the first to offer "quadruple-play", bringing together television, Internet, mobile phone and fixed-line telephone services. He is presently Finance Director, leading Finance, Billing and Collections for the Business Division.

In previous roles, David has led treasury, investor relations and corporate finance, where he worked on the successful £5.6bn merger with ntl: Inc, and other acquisitions by the Company.

"I am really looking forward to joining the team at iiNet," said Mr Buckingham. "The culture and story is fantastic and I'm excited about the growth opportunities that we will be pursuing."

About iiNet

iiNet was established in 1993 and listed on the ASX in 1999, growing from a small Perth business into the third largest Internet Service Provider in Australia. The Company now supports over half a million dial up, broadband and telephony services nationwide, with revenues of over \$240m, and proudly employs over 600 people in Perth, Sydney and Auckland.

iiNet's goal is to lead the market with the best Internet access products and then differentiate with genuine, plain speaking customer service. The company has its own high speed ADSL2+ network reaching around 4 million households across Australia, the largest Voice over IP network in the country, and is delighted to have led yet again with naked DSL, recognized by PC User Magazine as the 2007 Product of the Year.
