home 4 unbundled	7GB + 14GB = <b>21GB</b>	\$56.95
home 5 unbundled	15GB + 30GB = <b>45GB</b>	\$69.95
home 6 unbundled	25GB + 40GB = <b>65GB</b>	\$99.95
home 7 unbundled	40GB + 60GB = <b>100GB</b>	\$129.95

### all broadband2+ plans come with:

- **ADSL2+ speeds**
- 10 free email addresses + 30MB of webspace
- Free spam & virus email protection
- Generous download quota and access to the iiNet freezone
- Extended off peak period (2am - 12pm)
- Flat-rate monthly fees with no extra charges

## ADSL2+ explained

As part of our commitment to providing better broadband and phone services Australia-wide, we've built our own world class ADSL2+ network - the **iiNetwork** - which allows us to offer the fastest speeds your line can handle (up to 24,000 kbps).

### flat-rate monthly fees with no extra charges

If your download quota is reached, your speed is shaped to 64kbps for the rest of your billing month. Our broadband plans also give you access to **the iiNet freezone**, where you can get music, movies, games and more without using up your quota.

### connection

Our broadband plans have a one-off connection fee of \$79.95. An early termination fee applies to connections cancelled or relocated within the first six months.

### sign up

online - <http://www.iinet.net.au/my/join>

or call - **13 19 17**

For more information, check out [www.iinet.net.au/broadband](http://www.iinet.net.au/broadband)

### hardware

Broadband requires different hardware to dialup. So if you are new to the internet or use dialup, you may require an ADSL modem. If you bundle with VOIP, you will need an additional phone handset and a VOIP compatible modem.

### fair contract guarantee

When you sign up for the optional 24 month contract, you commit to retain your broadband service for this set period. However, our fair contract guarantee allows you to change between plans at any time without constituting a break of contract. Full details available online.

Prices are valid as of 1st July 2008 and are subject to change.
